

Current Statistical Reports Published by the Department of Statistics, Malaysia, held in the University of Malaya Library: an Annotated List

Devinder Kaur Chall*

Abstrak: Rencana ini sebagai lanjutan kepada Current Statistical Publications held in the University of Malaya Library: an Annotated List yang disiarkan dalam Kekal Abadi keluaran Jun 1986, menghuraikan laporan data statistik yang diterbitkan oleh Jabatan Perangkaan Malaysia secara tahunan atau dwi-tahunan.

Introduction:

This is a sequel to the writer's article in the June 1986 issue of *Kekal Abadi* entitled, *Current Statistical Publications held in the University of Malaya Library: an Annotated List*. Whilst the previous article considered statistical publications by various official bodies issued monthly, quarterly or semiannually, the present article treats reports on statistical data emanating from the premier body in this field namely, the Department of Statistics, Malaysia. Its publications, issued largely annually or bi-annually are based on data derived from surveys and studies conducted by the Department and merit close scrutiny from researchers seeking statistical information.

1. Malaysia, Jabatan Perangkaan, *Buku Tahunan Perangkaan = Yearbook of Statistics*. fHA 1791 MDSA

Frequency: Annual

Coverage: As of the 1984 yearbook, this publication replaces the previously entitled *Annual Statistical Bulletin = Siaran Perangkaan Tahunan*. Presented in a new format it aims to provide a more comprehensive set of social and economic data on Malaysia. It provides the latest annual statistics on Malaysia as well as the component regions, namely, Sabah, Sarawak and Peninsular Malaysia, and time series data covering the several years past. Tables presenting the data are given under the following headings:

Area; Climate; Population; Agriculture (includes livestock, forestry and fishing; main crops covered

are rubber, oilpalm, coconut, cocoa and padi); Manufacturing, construction, mining (including petroleum and natural gas), electricity, Index of industrial production; Services (professional and institutional establishments, selected services); External trade and balance of payments; Prices; Employment; National accounts; Finance (Public finance, banking institutions, taxes collected, EPF contributions, life insurance funds, turnover of stocks and shares, data on registration of companies); Transport and communications; Education (schools, pupils, teachers and institutions of higher learning); Welfare services; Health; Public safety (road accidents, crimes, fire breakouts); Foreign visitors; Miscellaneous (co-operative societies, number of registered marriages); Selected socio-economic indicators (for ASEAN countries, Japan, the Republic of North Korea, United States, United Kingdom).

Geographic area: West Malaysia, Sabah and Sarawak

2. Sabah, Jabatan Perangkaan, *Siaran Perangkaan Tahunan = Annual Bulletin of Statistics*. fHA1797 S1MDSA

Frequency: Annual

Coverage: Provides a wide range of important selected statistics for Sabah. Statistics are presented on a time series and wherever possible data series for the ten year period have been given for purposes of comparison. Latest annual figures are given.

*Bahagian Perkhidmatan Pembaca, Perpustakaan Universiti Malaya.

Tables present statistical data under the following headings:

Climate; Population; Labour force and employment; Vital statistics and migration; Housing; Agriculture; Livestock; Fisheries; Forestry; Manufacturing and construction; Quarry and related products; Electricity, and water supply and sewerage; Transport; Communications; External trade; Prices; Finance; Medical and public health services; Education; Elections; Crime, justice and prisons; National income; Visitor arrival statistics; Miscellaneous.

Geographic area: Sabah

3. Sarawak, Jabatan Perangkaan, Siaran Perangkaan Tahunan = Annual Statistical Bulletin. fHA1797 S2SJPA

Frequency: Annual

Coverage: Presents a range of important selected statistics for Sarawak. The latest annual figures with comparative figures over the years are given.

Tables present statistical data under the following headings:

Climate, area and land use; Population, vital statistics and housing; Labour force and employment; Visitor arrival statistics; Agriculture, forestry, livestock and fisheries; Electricity and water; Mining and quarrying; Manufacturing; Construction; Professional and institutional establishments; Whole and retail establishments, selected service trades and other industries, and census of licensed trading establishments; Prices; External trade; Transport and communications; Gross domestic product; Public finance; Co-operative movement; Duties and taxes; Education; Public health; Law and order.

Geographic area: Sarawak

4. Malaysia Barat, Jabatan Perangkaan, Perangkaan Penting Semenanjung Malaysia = Vital Statistics of Peninsular Malaysia. fHA1791 MBJP

Frequency: Annual

Coverage: Presents statistics on vital events, information of which is contained in birth, death and stillbirth certificates obtained from the Superintendent Registrars of Births and Deaths of each of the 11 states of Peninsular Malaysia and the Federal Territory. Basic tables are presented showing data on the following:

Population; Natural increase; Live births; Stillbirths; Infant deaths; Mortality; Birth weight.

Geographic area: Peninsular Malaysia

5. Sabah, Jabatan Perangkaan, Perangkaan Penting = Vital Statistics. fHA4600.6 Z9S2SJP

Frequency: Annual

Coverage: Presents statistical data for Sabah on vital events, information of which is contained in the birth and death monthly returns obtained directly from the Regional Registrar of Births and Deaths and for the returns from the 24 districts of Sabah.

Basic tables show statistics on:

Population; Natural increase; Live births; Stillbirths; Mortality; Infant mortality; Registered live births and deaths.

Geographic area: Sabah

6. Malaysia, Jabatan Perangkaan, Buletin Perangkaan Sosial Malaysia = Social Statistics Bulletin Malaysia. fHN700.6 A5MJPB

Frequency: Annual

Coverage: Aims to provide social statistics to reflect the social health of the Malaysian society. The principal areas of collection of data have been identified as population, public safety, housing, education, health and welfare services.

Tables and diagrams showing social data are divided into sections as follows:

Population; Housing census; Low cost housing; Education; Health; Welfare services; Public safety; Labour and employment.

Each section provides a further breakdown of details of social data displayed in tables and diagrams.

Geographic area: Peninsular Malaysia; data on Sabah and Sarawak are included wherever possible

7. Malaysia, Jabatan Perangkaan, Perangkaan Permulaan Akaun Negara Bagi Malaysia 1978-1984 = Preliminary National Accounts Statistics of Malaysia 1978-1984. fHC445.5 Z9I5PPKNM

Frequency: Annual

Coverage: This publication marks the first release of such statistics using prices valued in the year 1978 as the base year.

These preliminary national accounts estimates are the

more timely releases of national accounts statistics and cover the years for which the final national accounts statistics are not compiled.

The estimates are based on supply and demand indicators emanating from current statistics collected by the Department of Statistics and secondary data collected by agencies outside the Department.

Tables show the following statistics for the years 1978, 1979, 1980, 1981, 1982, 1983, and 1984:

Expenditure on the Gross Domestic Product in purchasers' values, at current prices

Expenditure on the Gross Domestic Product in purchasers' values, at constant prices

Gross Domestic Product by kind of economic activity in producers' values, at constant prices.

Geographic area: Malaysia

8. Malaysia, Jabatan Perangkaan, Perangkaan Kira-Kira Negara = National Accounts Statistics. fHJ68 M2MDSN

Frequency: Annual

Coverage: This report presents final national accounts on Malaysia for the latest possible year and provides preliminary estimates of gross domestic product in constant and current prices for the more recent years.

Final national accounts have been compiled and published for the years 1971, 1973 and 1978; statistics for the year 1983 are being compiled.

It records the value of all economic transactions in a given period of time between different sectors of the economy and between these sectors and the rest of the world.

Details of these statistics are shown in tables as follows:

Expenditure on the Gross Domestic Product in purchasers' values

Expenditure on the Gross Domestic Product in purchasers' values, at constant prices and at current prices

Gross Domestic Product by kind of economic activity in producers' values at constant prices and at current prices.

National income and national disposable income

Capital transactions of the nation

Contributions to Gross Domestic Product of

selected industries by kind of economic activity, in producers' values, at current prices

Domestic factor incomes according to kind of economic activity

Supply and disposition of commodities, at current prices

Government final consumption expenditure according to purpose, in purchasers' values

Government final consumption expenditure according to cost-composition and purpose, in purchasers' values, at current prices

Private final consumption by objects, in purchasers' values at current prices

Private final consumption expenditure by type of expenditure in purchasers' values at current prices

Composition of gross capital formation and gross fixed capital formation in purchasers' values, at current prices

External transactions

Geographic area: Malaysia

9. Malaysia, Jabatan Perangkaan, Laporan Imbangan Pembayaran Malaysia = Balance of Payments Report Malaysia. fHG3883 M2MJPA

Frequency: Tri-annual

Coverage: Previously entitled the *Balance of Payments Estimates = Anggaran Imbangan Pembayaran*, this report releases in a continuing series since the 1974-1978 title, the latest revised balance of payments statistics for Malaysia as a whole.

The estimates obtained from the Department, other government and statutory agencies as well as the private sector are presented in two sections, namely the current account and the capital account. The current account records transactions in goods, services, investment income and unrequited transfers and also other changes which affect official reserves, while the capital account records those transactions which represent changes in foreign financial long-term and short-term assets or liabilities.

Included are tables showing the following statistics for Malaysia: Exports by sections; Imports by sections; Exports of major commodities; Federal government external loans; External reserves.

Geographic area: Malaysia

10. Malaysia, Jabatan Perangkaan, Indeks Harga Pengeluar Bagi Malaysia = The Producer Price Index for Malaysia. fHB235 M4AHPBSM

Frequency: Annual

Coverage: This 1984 publication is the first in this new series, aimed to make available the annual commodity price indices at the producers' level. The annual indices are based on the data collected by monthly surveys in Malaysia. The Producer Price Index is designed to measure the average rate of change in prices of all commodities charged by the producers in Malaysia using 1978 as the base year.

Three categories of product sectors are identified, viz:
Local production; Imports; Goods in the domestic economy.

In each category are arranged industry and commodity groups for which are shown in detailed statistical tables the annual indices figures for 1979 to 1984, with quarterly indices for 1983 and 1984 and the average price changes of commodities given in percentage.

Geographic area: Malaysia

11. Malaysia, Jabatan Perangkaan, Perangkaan Tahunan Perdagangan Luar Bagi Malaysia = Annual Statistics of External Trade Malaysia. fHF240 M2MJPP

Frequency: Annual

Issued in volumes and parts as follows:

Volume I Export and Re-Exports: Part 1 Tables & Summaries

Volume II Imports: Part 1 (sections 0–5); Part 2 (section 6); Part 3 (sections 7–9).

Coverage: Contains statistics relating to the import and export trade of Malaysia by land, sea and air for the year. Data is compiled from the import and export declarations submitted to the Department of Royal Customs and Excise Malaysia by importers and exporters or their agents.

Volume 1 Exports and re-exports.

Part 1, section A contains tables showing the following statistics:

Imports, exports and balance of trade

Inter-regional trade between Sabah, Sarawak and Semenanjung Malaysia

Imports and exports by commodity sections

Exports of major commodities

Imports by commodity divisions and sections

Major exports by main divisions and sections

Value of imports and value of exports classified respectively by major countries and commodity sections for the preceding year and the current year

Percentage of imports and percentage of exports classified respectively by major countries and commodity by sections for the preceding year and the current year

Imports and exports by major countries

Imports and exports by countries

In Part 1, section B, summaries of data are listed on:

Value of exports, imports and re-exports by sections, divisions and groups

Value of exports, imports and re-exports showing total groups of each country of destination and origin

Appended are the following:

SITC Commodity Classification by sections, divisions and groups

Arrangement of countries and their codes

Classification of the Customs Cooperation Council Nomenclature

Alphabetical index to commodities

Volume II, Part 1, Part 2, Part 3:

In these parts are shown data on imports by detailed classification headings showing the quantity and value of each commodity imported from each country.

Geographic area: Peninsular Malaysia (with one special table on inter-regional trade between Peninsular Malaysia, Sabah and Sarawak).

12. Sabah, Jabatan Perangkaan, Perangkaan Perdagangan Luar = Statistics of External Trade. fHF240 SISDS

Frequency: Annual

Issued in two volumes as follows:

Volume I Exports and Re-Exports

Volume II Imports.

Coverage: Contains statistics relating to the import

and export trade of Sabah by land, sea and air for the year. Data is compiled from the import and export declarations submitted to the Department of Royal Customs and Excise, Malaysia by importers and exporters or their agents.

Volume I Exports and re-exports

Section A contains tables showing statistics as follows:

- Value and percentage of Sabah imports and exports by sections

- Sabah imports by divisions and sections

- Exports of major commodities

- Imports and exports by major countries

- Value of imports and value of exports classified by major countries and commodity sections

- Percentage of imports and percentage of exports classified by major countries and commodity sections

Section B lists summaries of data on foreign trade:

- Exports, imports and re-exports by sections, divisions and groups

- Exports, imports and re-exports by country of destination/origin by sections, divisions and groups.

Section C lists data on exports and re-exports by detailed classification headings showing the quantity and value of each commodity exported to each country of destination.

Section D lists data on re-exports by detailed classification headings showing the quantity and value of each commodity re-exported to each country of destination.

Volume II Imports

This volume carries section E that shows data on imports by detailed classification headings showing the quantity and value of each commodity imported from each country of origin.

Appended in both volumes are the following:

- SITC Commodity Classification Scheme by sections, divisions, and groups

- Arrangement of countries and their codes

- Classification of the Customs Cooperation Council Nomenclature

- Alphabetical index to commodities

Geographic area: Sabah

13. Sarawak, Jabatan Perangkaan, *Perangkaan Perdagangan Luar = Statistics of External Trade.* fHF244.6 Z8S2SCSB

Frequency: Annual

Coverage: Contains statistics relating to the import and export trade of Sarawak by land, sea and air for the year. Data is compiled from the import and export declarations submitted to the Department of Royal Customs and Excise, Malaysia by importers and exporters or their agents.

Section A carries tables showing the following statistics:

- Sarawak imports, exports and balance of trade

- Value of direct foreign trade and trade with Singapore

- Value and percentage of Sarawak imports and exports by sections

- Imports from and exports to Peninsular Malaysia and Sabah by section, to Singapore and other countries by section

- Value of monthly imports and monthly exports by sections

- Value of imports and exports by ports

- Imports and exports by major countries

- Value of imports and percentage of imports classified by major countries and commodity sections

- Value of exports and percentage of exports classified by major countries and commodity sections

- Sarawak imports by division and section

- Imports of certain commodities showing the comparative figure and their unit values

- Exports of major commodities

- Exports of natural rubber by port of clearance and by types

- Exports of sawn timber and round timber by port of clearance and by types

- Exports of white pepper and black pepper by port of clearance

- Imports and exports of petroleum and petroleum products by types

Section B shows summaries of data on:

- Value of exports, imports and re-exports by sections, divisions and groups

- Value of exports, imports and re-exports showing

total groups for each country of destination and origin

Section C lists data on imports by detailed classification headings showing the quantity and value of each commodity imported from each country of origin

Section D lists data on exports and re-exports by detailed classification headings showing the quantity and value of each commodity exported to each country of destination

Section E lists data on re-exports by detailed classification headings showing the quantity and value of each commodity re-exported to each country of destination

Appended is the following:

Alphabetical index to commodities

List of countries

SITC commodity classification by sections, divisions and groups

Classification of the Customs Cooperation Council Nomenclature

Geographic area: Sarawak

14. Malaysia, Jabatan Perangkaan, Laporan Penyiasatan Tenaga Buruh = Report of the Labour Force Survey. fHD8700.6 A5MJP

Frequency: Annual

Coverage: This report provides annual statistics on the structure and distribution of the labour force, on employment, unemployment and under-employment in Peninsular Malaysia, Sabah dan Sarawak. The estimates are derived from quarterly conducted surveys and show data not only on national estimates but also separately for urban and rural areas.

Statistical data is shown separately for Peninsular Malaysia, Sabah dan Sarawak in tables as follows:

The distribution of the total population, working age population, the labour force, the employed, unemployed and persons outside the labour force by permutations of variables such as age group, ethnic group, sex, stratum, industry and occupation

The labour force participation rates by permutations of stratum, age group, sex, ethnic group and education level

The percentage distribution of labour force by permutations of stratum, age group, sex, ethnic group, education level and labour force status

The percentage distribution of employed persons by permutations of stratum, industry, sex, ethnic group, hours worked per week, workings less than 25 hours per week, occupation, principal employment status and age group

Total active and inactive unemployment rates by permutations of stratum, sex, age group, ethnic group and education level

Percentage distribution on total, actively and inactively unemployed persons by permutations of age group, work experience, sex, duration of unemployment, stratum, activity status, reasons for not seeking work, education attainment

Percentage distribution of persons outside the labour force by permutations of activity status, age group, ethnic group, stratum, reasons for not seeking work, work experience and education attainment.

Geographic area: Peninsular Malaysia, Sabah and Sarawak

15. Malaysia, Jabatan Perangkaan, Jadual-Jadual Asas – Banci Perusahaan-Perusahaan Perkhidmatan Terpilih = Basic Tables – Census of Selected Service Industries. fHC445.7 JJAPPTS

Frequency: Annual

Coverage: Previously entitled *Basic Tables – Census of Selected Industries*, this publication as of the issue for the reference year 1983, has included in its coverage the following two industries:

Advertising agencies (census carried out for the first time in Peninsular Malaysia for the reference year 1983)

Hotels and other lodging places (previously included in the annual report on the Industrial Surveys)

Contains data on the principal statistics in respect of Census of Selected Service Industries conducted in Malaysia. The selected service industries covered are:

Shipping companies; Real estate agencies; Housing developers; Bus transport; Taxi transport; Road haulage; Cinemas; Tourists and travel agencies; Shipping agents; Stock brokers, commodity brokers and foreign exchange brokers; Stevedoring companies; Advertising agencies; Hotels and other lodging places.

For each of the industries, basic tables are presented portraying principal statistics by:

State; Ownership; Legal status; Revenue size group; Total employment size group; Fixed assets size group; Category of workers.

Geographic area: Peninsular Malaysia, Sabah and Sarawak [Note: Presentation of separate reports on Peninsular Malaysia, Sabah and Sarawak has been discontinued]

16. Malaysia, Jabatan Perangkaan, *Penyiasatan-Penyiasatan Perusahaan = Industrial Surveys.* fHC445.5 PPM

Frequency: Annual

Coverage: These annual Industrial Surveys report on the principal statistics collected in each of the industrial surveys of various industries, viz, the:

Annual Census of Construction Industries

Annual Census of Manufacturing Industries

Annual Census of Mining Industries

Annual Census of Produce Brokers

Annual Census of Stone Quarrying

Biennial Census of Selected Service Trades viz.,

Census of Hotels and Other Lodging Places (as of the reference year, 1983, included in *Basic Tables – Census of Selected Service Industries*)

Census of Barber and Beauty Shops

Census of Laundries and Laundry Services

Census of Photographic Studios

These surveys canvass a comprehensive range of data and present principal statistics by:

Year; State; Industry; Ownership; Legal status; Fixed assets size group; Total employment size group; Output size group; Work state; Category of workers.

The Census of Mining Industries covers:

Iron ore; Tin mining; Amang treatment; Petroleum mining; Gold mining; Antimony mining; Bauxite mining; Copper mining; Other mining.

The types of produce covered in the Census of Produce Brokers are:

Rubber; Oil palm; Copra/coconut.

Note: Not all the industries mentioned necessarily appear in every issue. The issue for the reference year 1982 for example, is constrained to the

manufacturing and construction sector whilst the issue for the reference year 1983 covers the construction, manufacturing and the mining and quarrying sector.

Geographic area: Peninsular Malaysia, Sabah and Sarawak

17. Malaysia, Jabatan Perangkaan, *Laporan Penyiasatan Kewangan Syarikat-Syarikat Berhad Malaysia = Report on the Financial Survey of Limited Companies Malaysia.* fHG4244.66 MJP

Frequency: Annual

Coverage: Presents data on the annual Financial Survey of Limited Companies in Malaysia that surveys the financial aspects of limited companies, both privately limited and publicly limited. Commencing the year 1979 and thereafter only those companies earning an annual revenue of \$5 million are included.

Based on ownership control, 3 types of companies are distinguished, namely:

Locally controlled companies; Foreign controlled companies; Branches of companies incorporated abroad.

These companies represent 10 industry sectors:

Rubber; Other agriculture; Tin mining; Other mining; Construction; Manufacturing; Wholesale trade; Retail trade; Banks and other financial institutions; Other industries.

Items of information collected from each of the companies that are presented in statistical tables show details of the following:

Profit and loss account; Capital account; Flow of foreign long term capital; Capital expenditure on fixed assets.

Ownership structure of share capital

Direct investment income, receipts and payments abroad and other transactions, etc.

Employment and payroll

Note: The data derived from the survey is used in the compilation of Malaysian National Income, Balance of Payments Estimates, the Business Expectations Survey of Limited Companies, and provides a useful source in trade and industry for market research and surveys.

Geographic area: Peninsular Malaysia, Sabah and Sarawak

18. Malaysia, Jabatan Perangkaan, *Penyiasatan Gunatenaga Suku-Tahunan Dalam Perusahaan-Perusahaan Perkilangan, Semenanjung Malaysia = Quarterly Survey of Employment in Manufacturing Industries, Peninsular Malaysia.* fHD5822.6 A6PGSTPPP

Frequency: Data is collected in quarterly surveys. The first survey was undertaken for the reference year 1975; this second survey was conducted for the reference year 1976 and published in 1979.

Coverage: The publication indicates the characteristics of employment and changes in employment trends in the industry over the quarters of the year.

Reported in numerous tables is data on:

Total employment and payroll by:

- Category and citizenship of workers
- Category of workers
- Various industries
- Category of workers and establishment status
- Category of workers and the various states
- Category of workers and legal status
- Category of workers and ownership
- Category of workers and total employment
- Category of workers and various size groups

Number of establishments by:

- Industry; Establishment status; State; Legal status; Ownership; Employment size group.

Geographic area: Peninsular Malaysia

19. Malaysia, Jabatan Perangkaan, *Banci Pertubuhan-Pertubuhan Profesyenal dan Yayasan (Sektor Swasta) Semenanjung Malaysia = Census of Professional and Institutional Establishments (Private Sector) Peninsular Malaysia.* fHT687 MJP

Frequency: Annual

Coverage: This publication reports on the census of selected professions and institutional groups in the private sector, viz.,

- Accountants; Architects; Dentists; Doctors; Engineers; Lawyers; Surveyors; Veterinary surgeons; Private schools; Private hospitals and maternity homes.

Data in tables portray principal statistics by:

- Industry; Type of institutions; State; Ownership; Legal status; Revenue size group; Expenditure; Total employment size group; Salaries and wages; Fixed assets size group:

Geographic area: Peninsular Malaysia

20. Malaysia, Jabatan Perangkaan, *Perangkaan Pelawat-Pelawat Semenanjung Malaysia = Visitor Statistics Peninsular Malaysia.* fG155 M2TSSM

Frequency: Annual

Coverage: Reports on the visitor arrivals based on the computer-matched arrival and departure portions of the embarkation/disembarkation cards from the Immigration Department.

Tables show the following statistics:

- Visitors by air, sea, road and rail (1979—current year)
- Visitors by month, purpose of visit, sex and age group
- Visitors by actual length of stay and purpose of visit
- Visitors by citizenship and month, actual length of stay, and purpose of visit
- Visitors by air, sea, road and rail, point of entry and purpose of visit, point of entry and month.
- Visitors by type of accommodation and purpose of visit, and by month

Geographic area: Peninsular Malaysia

21. Sabah, Jabatan Perangkaan, *Perangkaan Pelawat-Pelawat Sabah = Visitor Statistics Sabah.* fG155. S2SJP

Frequency: Annual

Coverage: Reports on visitor arrivals based on the computer-matched arrival and departure portions of the embarkation/disembarkation cards from the Immigration Department.

Tables show the following statistics:

- Visitors by mode of travel and purpose of visit (1979 to current year)
- For each mode of travel, visitor statistics by month, purpose of visit, sex, age-group, intended length of stay, citizenship, permanent place of residence

Visitors by mode of travel, point of entry, purpose of visit, month, type of accommodation, intended length of stay, place of embarkation, age-group, sex, first visit and on group tour

Visitors by citizenship, by permanent place of residence and intended length of stay, age-group

Visitors by place of embarkation, first visit, group tour, occupation, and month and purpose of visit

Geographic area: Sabah

22. Malaysia, Jabatan Perangkaan, *Perangkaan Perkapalan Semenanjung Malaysia = Shipping Statistics Peninsular Malaysia.* fHE597 M2MJP

Frequency: Annual

Coverage: Provides the latest annual statistical data on shipping in Peninsular Malaysia covering the two main ports of Port Kelang and Penang gathered from the Customs import/export trade declaration and the arrival/departure ship reporting forms.

Contains trade data in respect of imports and exports by country of origin and country of destination.

Records data on ship arrivals/departures, their characteristics as well as cargo loaded and discharged in the ports concerned.

Presented in tables under 3 sections, namely Exports, Imports, and Data of Flag by Type of Ship with Dead Weight Tonnage, the report contains information on the country's carriage of imports and exports by ships for the year according to the type of service, namely conference and non-conference and dead-weight tonnage (D.W.T.) size groups

Geographic area: Peninsular Malaysia

23. Malaysia, Jabatan Perangkaan, *Perangkaan Kelapa Sawit, Koko, Kelapa dan Teh Bagi Malaysia = Oil Palm, Cocoa, Coconut and Tea Statistics for Malaysia.* fHD9016 M2MJPP

Frequency: Annual

Coverage: Based on an annual census, this publication provides a comprehensive range of statistics pertaining to the crops:

Oil palm; Cocoa; Coconut; Tea.

For each crop above, the following data is given:

Principal statistics; Numbers (of estates, etc); Hectareage; Production; Stocks; Sales; Yield;

Fertilizers; Exports and imports; Capital and maintenance expenditure and production costs; Employment and payroll; Salaries and wages.

Geographic area: Peninsular Malaysia, Sabah and Sarawak

(Note: The Census of Coconut Estates is not conducted in Sarawak.

The Census of Tea Estates is not conducted in Sabah and Sarawak.)

24. Malaysia, Jabatan Perangkaan, *Penyiasatan Gunatenaga, Suku Tahun Bagi Estet-Estet Getah, Kelapa Sawit, Kelapa dan Teh di Semenanjung Malaysia = Quarterly Employment Survey on Rubber, Oil Palm, Coconut and Tea Estates in Peninsular Malaysia.* fHD5822.6 A6MJJP

Frequency: Annual

Coverage: This publication reports on data pertaining to employment and earnings collected in respect of estates in Peninsular Malaysia for the four quarters of the year surveyed.

For each of the estates, viz., Rubber estates; Oil palm estates; Coconut estates; Tea estates

statistics on employment, salaries and wages paid shown in tables for each quarter by category of workers and by:

Specified months of the year; State; Legal status; Ownership; Employment size group.

A summary of employment, salaries and wages paid by category of workers on rubber, oil palm, coconut and tea estates are shown in a table for each of the months of March, June, September and December of the year.

Geographic area: Peninsular Malaysia

25. *Buku Maklumat Perangkaan Getah Bagi Malaysia = Rubber Statistics Handbook of Malaysia.* fHD9161 M21RSH

Frequency: Annual

Coverage: Based on the Annual Census of Rubber Estates, the publication provides a comprehensive range of statistics pertaining to the rubber industry.

Statistics in numerous tables are given in sections as follows:

Principal statistics of rubber

Summary of principal rubber statistics and monthly rubber statistics

Number of estates

Planted hectareage

Production of rubber on estates and smallholdings

Yield per hectare on estates

Usage of fertilizers

Imports and exports

Local consumption of natural rubber

Stocks of rubber

Prices of rubber

Number of rubber dealers

Employment on rubber estates

Planting, capital, maintenance expenditure and production costs

Reconciliation of the total hectareage of rubber estates

Principal statistics of rubber in Sabah and Sarawak

World statistics of rubber

Several graphs show statistics, by variables on hectareage, production, yield, exports, and production percentage by main producing countries.

Geographic area: Peninsular Malaysia, with one section devoted to data on Sabah and Sarawak.
